5- About

DigiCampus is an online learning platform that aims to provide the most comprehensive blended learning platform for all stakeholders within the education sphere in Africa. This includes the learners, parents, teachers, schools, local education departments and national education bodies.

Learning today is not what it used to be. In the modern world, classroom learning, and free online video learning are working together to create a blended learning experience, which helps pupils retain more information and learn smarter than ever before.

FREE education for all is changing the face of the future, with an online video learning platform, specifically designed to help pupils achieve better results by supporting what they learn in the classroom or home school environment.

DigiCampus is shaping the future with FREE education for all. Register today and start your journey into the future of education, on www.digicampus.co.za

6- Key Products (Channels, Subsidiaries)

Products

DigiCampus for Learners

DigiCampus CAPS-aligned content provides an online learning solution that caters to the South African education sector by providing locally created educational content. High quality South African teachers who are looking to make a difference have contributed to the development of content which caters to nearly the entire South African syllabus ranging from Grade R – Grade 12.

Through our DigiCampus platform, we offer a modern vertical learning platform that covers the full school curriculum from primary to high school in all subjects in the main official languages. DigiCampus includes the development of a video bank of all subjects offered in the country's syllabus.

DigiCampus for Schools

DigiCampus provides a white-labeled online learning solution that caters to the South African education sector for various levels ranging from Primary School through until

Tertiary Level. High quality South African teachers who are looking to make a difference have contributed to the development of content which caters to nearly the entire South African syllabus ranging from Grade R – Grade 12.

DigiCampus for Government

DigiCampus provides governments' educational department with a secure online learning platform which includes features like a video library, live streaming of classes, ongoing assessments, tracking of progress and the capability to take your schools' system into the Fourth Industrial Revolution.

7- Quotes

“Shaping the Learners of Tomorrow...

Learning as unusual

Where Classroom learning meets virtual learning in a blended learning experience
